## MANAGEMENT DISCUSSION AND ANALYSIS

#### **BUSINESS REVIEW**

During the period under review, the Group was still affected by the outbreak of coronavirus disease ("COVID-19 Outbreak"). Our domestic market relies on our domestic distributors to market our furniture products to end-users in the People's Republic of China ("PRC"). Most of our distributors are individuals who operate in the form of sole proprietorship and many customers and suppliers were in a state of semi-standstill or even closed down since the first half of year 2020, which affected our domestic sales. For our export market, the Sino-US trade friction and shortage in shipping containers since the second half of year 2020 posted further challenges in overseas economies and related activities, resulting in delays in product shipment schedules, cancelled orders and delays in new products development.

The Group has been continuously assessing its business strategy. Since year 2020, the Group has introduced a design and promotional project by providing professional services such as layout design as well as fitting and display of products. The new professional services provide a steady income to the Group.

#### FINANCIAL REVIEW

#### Turnover

The Group's turnover increased by approximately 1.0% from about HK\$86.3 million for the six months ended 30 June 2020 to HK\$87.0 million for the six months ended 30 June 2021.

The COVID-19 Outbreak has consistently impacted the businesses operation of the Group as well as our customers. With the effort of Group, the business of the Group remained stable.

## Gross Profit

The Group introduced a design and promotional project by providing professional services such as layout design as well as fitting and display of products in year 2020, during the period under review, the professional services provided a higher return to the Group. As a result, the Group's gross profit margin was increased to 13.2% (six months ended 30 June 2020: 10.9%).

## Selling and Distribution Expenses

The Group's selling and distribution expenses amounted to about HK\$1.3 million for the six months ended 30 June 2021, against about HK\$4.1 million for the six months ended 30 June 2020. The selling and distribution expenses decreased as a result of the continued cost control at all levels as well as the low level of marketing activities.

## Administrative Expenses

The Group's administrative expenses amounted to approximately HK\$6.8 million for the six months ended 30 June 2021, against about HK\$15.4 million for the six months ended 30 June 2020. The decrease in administrative expenses during the period under review was mainly attributable to the continued cost control at all levels and the absence of the written off of the trade receivables of approximately HK\$2,578,000 that related to Pier 1 Imports, Inc., one of the Group's major customers for upholstered furniture, as well as the foreign exchange gain arising from conversion of the foreign currencies to Hong Kong dollars, the functional currency of the Group.

## Profit for the Period

Profit attributable to equity shareholders of the Company for the six months ended 30 June 2021 was approximately HK\$1.0 million as compared to loss attributable to equity shareholders of the Company of approximately HK\$9.1 million for the corresponding period last year.

## **PROSPECTS**

As the development of the COVID-19 Outbreak remains to be highly unpredictable, the extent of its impact on the economy of China and the world is uncertain.

Since the second half of year 2020, the shortage in shipping containers and soared freight costs were far beyond expectation. The Group experienced delays in shipment schedules and cancelled orders. In addition, US-Sino trade war has compounded the uncertainties we are facing, and has introduced additional layers of dynamics and stochastic events. The Group's upholstered furniture products that is export orientated and rely heavily on the US market is directly affected. Besides, various travel restrictions and lockdown measures remain enacted as a result of the pandemic, which impede our marketing and promotional works, resulting in a slowdown of our products development. The management is of the view that the overall tough business environment may persist for some time.

The Group has proactively responded and conducted corporate restructuring activities to rebalance our business focus. We have expanded our business into a design and promotional project by providing professional services such as layout design as well as fitting and display of products during the year. We believe entering into the design and promotional project could achieve synergy with the Group's existing business which enables the Group to access to additional income and cash flow stream to the Group while further diversifying the Group's overall business to confront the volatile economic condition and environment.

Apart from regular on-the-job training, the Group also engaged professional parties to provide training to its staff to ensure they can obtain updated job related knowledge and enhance the quality of work.

Flexible working hours, shift duties and home office were implemented to reduce workplace density and to guarantee smooth business operations.
